

### **Personal plan of commitment and action**

Within my position at UNEP, I am prepared to act as emerging environmental leader focal point for the GEG Forum within UNEP, ensuring information exchange between the bodies and coordination of activities.

Beyond my regular involvement in UNEP's IEG work, I am prepared to carry out the following activities in line with the above listed items for collective action:

- awareness raising about IEG debate within UNEP by:
  - establishing a link with the TUNZA section, i.e. UNEP's youth network to ensure awareness among young people;
  - organizing a 'brown bag' lunch seminar on the objectives and ongoing processes, with key presenters;
  - drafting and maintaining a factsheet of crucial aspects that can be circulated regularly or sent upon request
  
- awareness raising about IEG debate among external stakeholders
  - drafting and maintaining a factsheet of crucial aspects that can be circulated regularly or sent upon request
  - liaising with colleagues of Division of Communication and Public Information to ensure that IEG debate is adequately featured on UNEP website and in UNEP publications
  - integrating the gender perspective into the IEG debate to provide additional weight
  
- promotion of IEG in relevant forums
  - ensure that the IEG debate becomes a regular agenda point of the Network of Women Ministers and Leaders for the Environment
  - ensure that links to IEG are considered by colleagues in their contributions to international, regional and national forums through side events, etc.
